Directions to Key-Holders.

Upon positive information of a fire *near* your signal box, unlock the door, and turn the crank slowly and steadily about twenty-five times. In boxes where there are no cranks, pull the hook down once, slow, then let it go and shut the box door.

Never open the box or touch the crank except in case of fire.

Never give an alarm except from the box nearest the fire.

Be sure the box is locked before leaving it.

Never let the key go out of your possession, unless to some responsible person for the purpose of giving an alarm, or when called for by the Superintendent.

The number of the box signaling the fire will be struck upon the bells of all the Engine Houses. For example: To announce an alarm from signal box No. 24, the bells will be struck TWICE, and after a pause of five seconds, will be struck FOUR times, thus, 2—4. If from 124, thus, 1—2—4. The number of the box will be repeated at intervals of fifteen seconds until a sufficient alarm has been sounded.

E. G. MEGRUE,
Chief Eng. Fire Dept. and Supt. Fire Alarm Tel.

STREET DIRECTORY.

The STREET DIRECTORY is simply an ALPHABETICAL arrangement of Streets, Alleys, etc., with a sufficient portion of corner numbers attached to such as are of any considerable importance, for the purpose of aiding those who refer to it, in becoming familiar with the system of numbering. It will be found by citizens as well as strangers to be a practical guide to the different parts of the City, as far as it has yet been numbered.

EXPLANATION.—On streets commencing at and running directly from the River, or others running in the same direction, the ODD numbers are on the West, and the EVEN on the East side of the street, commencing at the River or such other point as the street may commence. On streets crossing Main, the ODD numbers are on the South, and the EVEN on the North side of the street, commencing at and running East and West from Main, thus dividing each into two distinct streets, distinguished by prefixing East or West to the name. All others running in a similar direction are numbered in the same manner, commencing at the point nearest to Main and running East or West, according to the direction of the same. In a very few instances streets will be found to have the same name, one of them generally in the suburbs, not numbered and of but little consequence—to such an * is prefixed.

In designating the CORNER numbers we have used ODD numbers entirely, except where streets commence at or end upon the side where the EVEN numbers belong.

CINCINNATI, OHIO.

THE SAFE DEPOSIT CO.

OF CINCINNATI,

No. 20 West Third Street.

Established to meet a want in all large Cities, and under the most Careful Regulations.

Merchants and Manufacturers, in view of destruction by fire, or misplacement of envelopes of Insurance Policies, Deeds, Leases, Contracts, or other valuable papers, would find their anxiety of mind relieved by renting a box in the Company's Vaults.

Trustees, Guardians, Sureties, Attorneys at Law, or in fact, Treasurers for Corporations, by making their Principals pay for rent of a box, can avoid much personal risk, and protect their bondsmen in case of death or accident.

Banks and Bankers may relieve their employes, officers and stockholders of an uncertain, but, at times, large responsibility, by requiring parties to secure boxes, at a small cost.

Holders of Gold, Silverware, Jewelry, or other valuables, can obtain receipts at fixed valuations, at same rates as charged in New York and London by similar institutions.
